+39 3271314423 · info@nicolacoco.com · www.nicolacoco.com · [LinkedIn](#)

Milan, Italy, EU

PROFESSIONAL SUMMARY

Technical Project Manager with experience delivering custom physical environments across retail, luxury and fragrance sectors. Skilled in coordinating technical development, production, suppliers, pre-assembly, logistics and installation, with a strong focus on turning design requirements into feasible, buildable and deliverable solutions. Experienced in multi-market rollout, material sourcing and cross-functional coordination across the full project lifecycle.

CORE EXPERTISE

Technical Project Management · Custom Production · Supplier Management · Pre-Assembly · Production Coordination · International Logistics · Retail Rollout · Site Delivery · Cost Control · Material Sourcing · Quality Control · Lean Process Improvement

PROFESSIONAL EXPERIENCE

NEON STYLE SRL — Project Manager

Opera, Italy | January 2026 – Present

- Manage the development and delivery of custom physical projects for fragrance brands, coordinating technical development, production, suppliers, logistics and installation.
- Translate design requirements into executable production solutions, aligning technical, material and manufacturing decisions throughout the project lifecycle.
- Coordinate project timelines, external partners and production activities through delivery, applying experience developed across luxury retail and custom fabrication environments.

Short-Term Rental Operations — Collaboration

Milan, Italy | August 2025 – January 2026

- Supported the day-to-day operational management of short-term rental properties in Milan.

ZERO — Cost Estimation Support

Saronno, Italy | June 2025 – July 2025

- Prepared project quotations and cost estimates based on technical requirements, supplier inputs and production needs.
- Supported the evaluation of project feasibility and cost structure during the pre-production phase.

INDEPENDENT E-COMMERCE PROJECT

Milan, Italy | May 2024 – May 2025

- Developed and tested an independent e-commerce concept focused on customizable digital business-card templates and optional physical print fulfillment.

PROFESSIONAL EXPERIENCE — CONTINUED

- Built Etsy product listings, customer delivery assets and marketing materials, while researching print suppliers, testing production quality and exploring additional Shopify-based product opportunities.

OLTREFRONTIERAPROGETTI SRL — Project Manager

Barlassina, Italy | May 2022 – May 2024

- Managed end-to-end delivery of custom retail windows, showrooms and installations for international luxury brands, coordinating technical development, production, suppliers, logistics and installation.
- Coordinated international rollout activities across multiple markets, including pre-assembly, packing and shipment control, installation support and reverse logistics.
- Developed an internal Material Library through international supplier research and the acquisition and organization of **289 material samples**.
- Applied Lean principles to production and pre-assembly workflows, contributing to an increase in daily H&M Move output from approximately **5 to 9 completed units**.

SORGENIA — Customer Experience Analyst Intern

Milan, Italy | January 2020 – March 2020

- Supported the launch and optimization of a new mobile application, collaborating with EY and Accenture on service and interface implementation and analysing customer feedback to identify experience improvements.

LENCI MODELS — Product Designer Intern

Rome, Italy | March 2017 – July 2017

- Developed and prototyped a space-optimizing furniture concept integrating design, engineering and user-experience considerations as part of Bachelor's thesis work.
